Dear Parent/Guardian

**Heron Island Excursion – At School Program**

Next week approximately half of our Year 11 students will take part in the annual senior student excursion to Heron Island in Queensland.

Students who are not attending the excursion will follow normal timetabled lessons. Students will be given an academic program of work to follow by their classroom teachers. This will involve extension and consolidation activities which will complement their normal classroom program. In some subjects which have no students from the class at Heron Island new topics may be introduced.

In the past many students who have not taken part in the major excursion have not come to school and the school week has been wasted. A great deal of work has gone into lesson preparation for students at school and Year 11 should make the most of this opportunity for more individualised learning.

It is in the above context that I appeal for help by asking that you strongly encourage all students to attend school for the oncoming week and take part in the program provided.

Yours faithfully

Patti Kearns
